# Unit 3

## TWO MONKEYS WERE PAID UNEQUALLY

Cucumber or grapes? What happens when two monkeys do the same task but get 'paid' in different ways? Watch this funny video to find out how monkeys react to inequality.

*VIDEO: YOUTUBE & TED*

# ACTIVITY 1

**Decide if these statements are true or false.**

**Video zone: Two monkeys were paid unequally**  
- 1

Are the sentences true or false?

7 items remaining

After the first experiment, the scientists did a similar study with other animals.  True  False

The man says that capuchin monkeys are generally not very social.  True  False

If both monkeys get cucumber for the task, they both get angry and throw away the cucumber.  True  False

The experiment used grapes because capuchin monkeys like them more than cucumber.  True  False

The monkeys in the video had previously done this experiment many times.  True  False

The monkeys' task in the video is to touch the scientist's hand.  True  False

## ACTIVITY 2

### Fill in the missing blanks

#### Video zone: Two monkeys were paid unequally - 2

Write a word to complete the sentences.

5 items remaining

1. If you give both of them cucumber for the task, ... they're perfectly  to do this 25 times in a row.

2. If you give them grapes, it's a far better food, then you create  between them.

3. Recently we videotaped it with new monkeys who'd never done the task, thinking that maybe they would have a  reaction, and that turned out to be right.

4. She  a rock now against the wall.

5. So this is  the Wall Street protest that you see here.
